7 Reasons Why Memorial Day is a Great Holiday!

Memorial Day would be a lesser holiday except that the timing of it is just too perfect! Without it, how we would ever figure out (without a calendar) when summer starts? As you and the Accidental Locavore know, the weather certainly can't be trusted!

Side Dish Recipe: Baked Asparagus Fries

The Accidental Locavore tried a recipe for asparagus fries (that aren't even fried) to mixed results recently. Here's the recipe adapted from spoonforkbacon and I'd love to know what you think. The prep time is a little long, depending on how many you're doing, however it's easy (but messy). Try to use one hand for the dredging and dipping and keep the other clean and dry for other tasks. From start to finish it will take less than an hour and feeds 4.
